

# PORTER COUNTY CAREER & TECHNICAL CENTER

## Return to Learn Plan

The model for student learning and procedures for school is based on community spread of COVID-19. The following four-tiered approach lays the groundwork for determining a school model and the additional protocols to be put into effect to support the health of our students, staff, families, and community. Level of incidence and subsequent protocols will be based on the [Indiana Department of Health dashboard](#) and/or the Porter County Health Department [COVID Advisory Level](#).

	Blue Status	Yellow Status	Orange Status	Red Status
Level of Incidence	No known active incidence/cases impacting school as determined by the Indiana Department of Health in conjunction with the Porter County Health Department	Known incidence/cases impacting school as determined by the Indiana Department of Health in conjunction with the Porter County Health Department	Moderate to substantial incidence/cases impacting school as determined by the Indiana Department of Health in conjunction with the Porter County Health Department	Substantial incidence/cases impacting school as determined by the Indiana Department of Health in conjunction with the Porter County Health Department
